

REMARKS/ARGUMENTS

Applicants elect, with traverse, as follows:

alcohol=geraniol;

aldehyde=hydroxycitronellal;

ester=benzyl salicylate;

ketone= coumarin;

solvent= ethanol.

As Claim 1 requires at least one of a musk and a ketone in element (d), this election is fully responsive. Applicants submit that a search of the entire claim set without the Election would not be burdensome.

New claims have been added that point out preferred aspects of the invention. These claims are supported by the specification and claims as originally filed. No new matter has been entered.

Claims 1-3 and 6-14 read on the elected specie.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
